**Danbury IT
Kelly Schaeffbauer**

President & Founder

With his unique combination of a love of technology and a genuine desire to provide excellent customer service, Kelly opened the doors of DanburyIT, formerly DataSolve.

Since 1995, his entrepreneurial spirit has led to its continued growth.

Fourteen years of Information Technology (I.T.) experience provide credibility to our services and confidence to both clients and team members. His vigilant assessment of ever-changing technology provides peace of mind to our clients as they move into the future.

**ID Insight
Adam Elliott**

President

Adam has more than 15 years of experience creating solutions for the financial services and direct mail industries. Prior to launching ID Insight, he was the President of ChexSystems, Inc., a subsidiary of eFunds Corporation, the recognized leader in providing risk and fraud solutions for the retail banking industry.

A recognized name in the analytics area, Adam has won numerous awards for marketing and training. He is a frequent speaker at industry conferences such as the National Center for Direct Marketing.

**Netmajic
Michelle Jennings**

President

Michelle is the majician of Netmajic, as well as owner and chief everything officer.

She is a proven Technology, Marketing, and Business Professional with 30 years of industry experience.

Michelle's experience ranges from Fortune 100 corporations to new ventures affording you a value you'll rarely see from a web developer or web development company. She understands your business. She knows technology.
